

2017 Club Championships Roundup

The 2017 Club Championships were played on the weekends of 14th and 15th of October and the 28th and 29th of October 2017.

25 matches were played in the Special Handicap Championships to decide the winners of the four competitions. Congratulations to the winners and runners up and especially to all 21 players who participated. The competition was excellent, with the handicapping being a great leveller culminating with very close results across most matches.

The Open Club Championship was held in 2017 with a reduced field - 15 matches were played across the four competitions to decide the winners. Thanks to those who participated in this long-standing competition and for the spirit with which these matches were played. The very warm conditions meant that physical stamina as well as tennis skills was the key to a successful outcome. Congratulations to all.
